Can We Cure You?

call or write, it will cost you nothing to do either, for we make no clurge for examination and consultation nor for our opinion by letter. We have been practicing our specialty now for over fifteen years, we have cured hundreds who had been told their cases were incurable and many others who had been told that a surgical operation was necessary. We never do surgery except as a last fesort. We never treat diseases not included in our specialty, like the

general practitioner who treats everything and rarely cures anything; hence we have been able to equip our offices especially for the treatment of Chromo Diseases and can devote all of our time and attention to the study and treatment of them.

WE CURE PROMPTLY, SAFELY AND THOROUGHLY: Catarrh in all its forms; Eczems, Epilepsy, Nervous decline, or Neurasthenia, Blood Poison, Stricture, Varicoccle, Hydrocele, Cystitis, Enlarged Prostate; Rectal and Private diseases and weaknesses and their complications.

We cure each case for a stated fee, furnishing all medicines and everything necessary so that one knows before starting a treatment what the cure will cost and always make our coarge reasonable considering the

Jack Herrick, the sturdy Chicago middleweight, who is here to do battle with Kid Mitchell in the Juarez builting next Sunday afternoon, is so confident of victory that he laughs at the claims of the Mitchell admirers in speaking of the Mexican's terrific onslaughts and famous crouching attitude.

Herrick is fast and clusive and figures that his style will be equally as puzzling to his opponent as the peculiar style adopted by the willy Mitchell is said to assume a low crouching position, depending on a sweeping left shift and uppercutting

National interest which is manifest in the probable makeup of the United States team which will compete in the Olympic games at Stockholm, Swaden in July, the result of which is indicative of the Utile of world's champion, becomes more concentrated as the time draws near for the team selection committee to make its nominations, which are to be governed by the results of the tryouts scheduled for San Francisco on May 18 for the Pacific coast contents. He wants Packey to weigh in at 122 pounds three or four hours before the first.

On the other hand there are many men distributed throughout the states, who, although they have not qualified, have, by virtue of their "past performances," and their well known ablitry to measure up to championship form whenever they set themselves to the task of preparing themselves for something on track and field out of the common, practically got their tickets sewed up in their "jeans." While many athletes will be on the anxious seat over the prospect of making the team, the wealth of keen competition which will ensue in each of the series will warrant many a heartache by those who will be "knocking at the door," but who will just lack the class which makes an Olympic performer.

In the founds, Otherwise it was an olimbian part of the battle Burns used both hands with telling effect. The champion's footwork enabled him to erade several well aimed blows and by side scepping and ducking Kilbane made Burns miss repeatedly. In the third round Kilbane landed lefts to the face and a hard right uppercut which free blood from Burns' mouth. Burns kept putting lefts to the stomach, but the blows did not seem to affect Kilbane.

TO BUILD BOXING ARENA NEAR EL PASO

Moose Club Is Behind Movement to Make El Paso the Fight Center; That Is, if New Mexico Allows It-Land Is Bought, Plans Made.

Prize baxing in the southwest has a bright outlook from the viewpoint of the promoter and the fan. Hard on the promotion at Las Vegus, N. M., of the alleged "big" Johnson-Flynn fight, and the singing in Juneza next Sunday of the Herrick-Mitchell 20 round encounter, comes tentative plans made for the creetion of a boxing aroun at El Paso's side door. It is planned to erect, a few miles west of El Paso, an aroun to seat 6000 persons, and to hold there boxing and wrestling sports the year "round.

Of course what his excellency, Go v. McDonald, is up to, has a whole lot to do with it. But if the Johnson-Flynn fight is not stopped, and the legislature of the new state appears friendly to the "manly art," It is certain that the project will go through. The Moose club of El Paso is back of the thing, will put up the money, and see that the thing is done right. The Hoose club has put on some boxing exhibitions, and there is much enthusiasm among its members, backed up by the willing coin.

It appears that the thing is no bum bunk. In fact, the club already has purchased six acres of land on which to erect an erens. It is located just over the river from the vehicle round up the valley, where a wooden bridge spans the creek. Also, it is on the Southern Pacific speedway, and there is where the flue work comes in. It is said that railway officials would run out special trains to the spot, and run the trains on a siding to the arean's door. The trip from town woul take no longer than 15 minutes, they say.

Not only hus the land been hought, but plans have been drawn for an arean to cost at leats \$6000, figuring a do line for each man to be scated. This would be excitaive of the cost of grounds and training quarters. The arean would be of wooden construction and protected as to the sun.
